

CONTENTS

- Bagnoli G., Peng S., Qi Y. & Wang C. – *Conodonts from the Wa'ergang section, China, a potential GSSP for the uppermost stage of the Cambrian*
- Collareta A., Landini W., Chacaltana C., Valdivia W., Altamirano-Sierra A., Urbina-Schmitt M. & Bianucci G. – *A well preserved skeleton of the fossil shark Cosmopolitodus hastalis from the late Miocene of Peru, featuring fish remains as fossilized stomach*
- Bogićević K., Nenadić D., Milošević S., Mihailović D., Vlastić S. & Tošović R. – *A Late Pleistocene rodent fauna (Mammalia: Rodentia) from Hadži Prodanova Cave near Ivanjica (western Serbia)*
- Argentino C., Reghizzi M., Conti S., Fioroni C., Fontana D. & Salocchi A.C. – *Strontium isotope stratigraphy as a contribution for dating Miocene shelf carbonates (S. Marino Fm., northern Apennines)*
- Chichkoyan K.V., Martínez-Navarro B., Moigne A.-M., Cioppi E., Belinchón M. & Lanata J.L. – *Description and interpretation of a Megatherium americanum atlas with evidence of human intervention*
- Sirel E. & Deveciler A. – *A new late Ypresian species of Asterigerina and the first records of Ornatorotalia and Granorotalia from the Thanetian and upper Ypresian of Turkey*
- Meister C., Schirolli P. & Dommergues J.-L. – *Early Jurassic (Sinemurian to basal Toarcian) ammonites of the Brescian Prealps (Southern Alps, Italy)*
- Zoboli D. & Pillola G.L. – *Early Miocene insular vertebrates from Laerru (Sardinia, Italy): preliminary note*
- Faucher G., Erba E., Bottini C. & Gambacorta G. – *Calcareous nannoplankton response to the latest Cenomanian Oceanic Anoxic Event 2 perturbation*
