

## CONTENTS

- Schlagintweit F., Kadivar Z. & Rashidi K. – *Some microfossils (Dasycladales, benthic foraminifera, sponges) from the Upper Jurassic Mozduran Formation (NE Iran, Kopet-Dagh) and their biostratigraphic and palaeobiogeographic importance*
- Selden P.A., Simonetto l. & Marsiglio G. – *An effaced horseshoe crab (Arthropoda: Chelicerata: Xiphosura) from the Upper Carboniferous of the Carnic Alps (Friuli, NE Italy)*
- Renesto S. & Kustatscher E. – *A coelacanth fish from the Anisian (Middle Triassic) of the Dolomites*
- Schwarzhans W. & Ohe F. – *Lanternfish otoliths (Teleostei, Myctophidae) from the Pliocene and Pleistocene of Japan*
- Józsa Š. – *Early Tithonian deep-water colonization by benthic foraminifera in the Magura Basin (Pieniny Klippen Belt, Western Carpathians): a clue to the origins of deep-water foraminifera*
- Hoşgör İ. & Yilmaz İ.ö. – *Paleogeographic northeastern limits of Aphrodina dutruei (Cocquand, 1862) (Heterodonta, Bivalvia) from the Cenomanian of the Arabian Platform*
- Parent H., Garrido A.C., Scherzinger A., Schweigert G. & Brambilla l. – *Ammonites of the subfamily Zapaliinae from the Lower Tithonian of Estancia María Juana, Vaca Muerta Formation (Portada Covunco Member), Neuquén Basin, Argentina*
- Fonnesu M. & Felletti F. – *Facies and architecture of a sand-rich turbidite system in an evolving collisional-trench basin: a case history from the Upper Cretaceous-Palaeocene Gottero System (Nw Apennines)*
- Cherin M., Azzarà B., Breda M., Brobia Ansoleaga A., Buzi C., Pandolfi l. & Pazzaglia F. – *Large mammal remains from the Early Pleistocene site of Podere San Lorenzo (Perugia, central Italy)*
- Khalifa B.K., Zaïbi C., Bonnin J., Carbonel P., Zouari K., Mnif T. & Kamoun F. – *Holocene environment changes in the Hachichina Wetland (Gulf of Gabes, Tunisia) evidenced by Foraminifera and Ostracoda, geochemical proxies and sedimentological analyses*
